universalseries
powerful workforce management

We designed the Universal Series to give you a range of flexible and powerful terminals. With high quality color screens, a variety of readers and options, expandable memory, and modern communications the Universal Series will grow with your needs.

FLEXpoint – For full-featured workforce management, employee self-service, the ability to display large amounts of information on a color touch screen, a high-speed processor, and input flexibility.

PEOPLEpoint – For full-featured workforce management, employee self-service, an easy-to-read color touch display, and a variety of input choices.

SMARTpoint – For efficient management of punches, schedules, timecards, and other information presented on an easy-to-read display.

PAYmate - A user-friendly time and attendance terminal, featuring Ethernet connectivity and power-over-Ethernet for improved workforce management.

AccuTouch USB - A fingerprint scanner that speeds up the enrollment process of employees and can act as a biometric reader for PC-based time & attendance applications.
